MATH GLOBAL Education

Mathematics is most liked subject for only 6% and it is the least liked one for 88% of students.

Mathematics is a unique subject that is the fundamental part of every school curriculum and the essential instrument for the development of all other sciences. Knowingly or unknowingly, we are using mathematics in every day life.

MGE proudly offers more **customized, conceptual** and **observational** math classes that focus on math understanding rather than memorization.

Many factors lead to “math anxiety” and difficulty in understanding math, which results in staying away from math related subjects and careers. This negatively affects students’ perseverance, goal orientations, interest, expectancy and task values, and even perception about the ability to reach their own goals. Reach your full potential and achieve all your academic goals with MGE.

My kids in grades 6, 9 and 12 love private classes with Bojana. It has been 4 years since we are with Math Global. Highly recommended..

Jay Dhali
Hamilton, ON

I was preparing for university calculus with Math Global. The best decision I made that summer. Thank you Math Global and Bojana.

Emma P.
Rome, Italy

I took private classes to prepare me for IB Math exam. We had 12 classes and I felt confident during my exams. Thank you for exam tips!

Robert Miles
